

# Parental Maths

## Workshop

### Purpose of Workshop:

To give parents and carers of children across the Federation the opportunity to see how the teaching of fractions progresses through the school and the concepts behind them.

Mr Boorman will be running these sessions using a variety of resources to show the progression in fractions, decimals and percentages through Key Stage 1 to the end of Key Stage 2. Materials will be available to look at, including past test papers and curriculum resources.

### Who are the Workshops for?

These workshops are for all age groups and are designed to enable parents to find out more about maths in a friendly environment. There is no expectation that anyone attending will have an expertise in maths, and any practical activities will be run in a friendly and inclusive manner!

When?	Where?
Wednesday 7 <sup>th</sup> November 9-10am	Blackboys School Hall
Wednesday 7 <sup>th</sup> November 6-7pm	Framfield School

Both sessions will cover the same topics, so attendance to both is not necessary.

Parents from across the Federation are welcome to attend either session at their convenience.

We are keen as a Federation to involve parents as much as possible in children's learning. We hope to organise further sessions in the future.

We look forward to welcoming you to these sessions.

Mr R Boorman  
Federation Maths Lead
