The most up-to-date advice is that anyone who is experiencing symptoms of a new continuous cough or a high temperature should stay at home for 14 days. Anyone who lives in the same household should also self-isolate. Families who are self-isolating have been requested to stay indoors as much as physically possible and to order essential supplies on-line to be delivered, or ask a non-isolating family member or friend to leave the supplies at the front door. We would request that all parents follow this advice and do not send a child to school if they have COVID19 type symptoms.

If you have any questions relating to this please do not hesitate to contact us.

Yours sincerely

Mr G Sullivan
