

Class 1: Pre-Learning Task - Under the sea; Over the waves

In Term 5 Class 1 will be learning all about the seaside and life under the ocean waves in the first part of our new topic Under the Sea. To help support this learning, over the Easter break we would love the children to complete one or more of the following tasks.

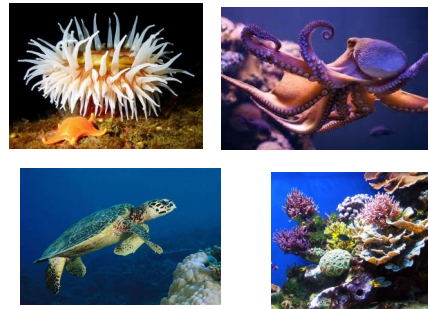

Task 1: Model making

Make a 3D model of a scene under the ocean.

Task 2: Information hunt

Find out some facts about your favourite sea creature.

Task 3: Photographs

Can you find any past photographs of a family day out at the seaside or a family beach holiday? Write about your favourite memories e.g. paddling in the sea.
