04th May 2017

Dear Parents/Carers

Re: Science Week

We are pleased to announce that St Thomas a Becket Federation will be experiencing a science week during the week of the 15th-19th of May. We will be welcoming several science specialists into school, including renowned, local bee expert Professor Dave Goulson. We will hopefully be taking advantage of the spring weather by doing lots of outdoor learning, focussing on working scientifically using investigative skills. If you have any expertise in science and would like to offer assistance before or during the week, please let the School Office know.

We are attaching a timetable of events by class and day so that you can see which activities your child will be engaged in throughout the week. We will also like you to start collecting certain materials and items - please see the table below for details. Likewise, if you would like to donate any of the items listed please inform the School Office.

Thank you in advance for all your support with this exciting project and week ahead!

Yours sincerely

Mrs Tsapparelli
Federation Science Coordinator

List of resources to collect:

- Twigs to make looms for weaving
- Interesting natural objects - twigs, pine cones, leaves, shells, pebbles, seed pods etc. for art work (we need lots of these)
- Empty fizzy drinks bottles with screw caps
