As a Federation, we also collect and use Special Category Data, both to provide education and comply with our legal obligations. We have therefore identified additional lawful basis from Article 9 of the UK GDPR. Most commonly, we process Special Category Data where:

- We have gained explicit consent for the processing.

The National Pupil Database (NPD)

Much of the data about pupils in England goes on to be held in the National Pupil Database (NPD).

The NPD is owned and managed by the Department for Education and contains information about pupils in schools in England. It provides invaluable evidence on educational performance to inform independent research, as well as studies commissioned by the Department. It is held in electronic format for statistical purposes. This information is securely collected from a range of sources including schools, local authorities and awarding bodies.

We are required by law, to provide information about our pupils to the DfE as part of statutory data collections such as the school census and early years' census. Some of this information is then stored in the NPD. The law that allows this is the Education (Information About Individual Pupils) (England) Regulations 2013.

To find out more about the NPD, go to <https://www.gov.uk/government/publications/national-pupil-database-user-guide-and-supporting-information>.

Sharing by the Department

The law allows the Department to share information about our pupils from the NPD with certain third parties including:

- schools and local authorities
- researchers
- organisations connected with promoting the education or well-being of children in England
- other Government Departments and Agencies

- organisations fighting or identifying crime.

For more information about the Department's NPD data sharing process, please visit: <https://www.gov.uk/data-protection-how-we-collect-and-share-research-data>.

Organisations fighting or identifying crime may use their legal powers to contact DfE to request access to individual level information relevant to detecting that crime. Whilst numbers fluctuate slightly over time, DfE typically supplies data on around 600 pupils per year to the Home Office and roughly 1 per year to the Police.

For information about which organisations the Department has provided pupil information (and for which project) or to access a monthly breakdown of data share volumes with the Home Office and the Police please visit the following website:

<https://www.gov.uk/government/publications/dfe-external-data-shares>.

How Government uses your data

The pupil data that we lawfully share with the DfE through data collections:

- underpins school funding, which is calculated based upon the numbers of children and their characteristics in each school.
- informs 'short term' education policy monitoring and school accountability and intervention (for example, school GCSE results or Pupil Progress measures).
- supports 'longer term' research and monitoring of educational policy (for example how certain subject choices go on to affect education or earnings beyond school).

Data collection requirements
