

Blackboys C.E Primary School Pupil Premium Strategy and Report

Strategy

The Pupil Premium is funding provided to schools which is additional to main school funding. It is allocated according to the number of pupils on-roll who are eligible for free school meals (FSM), a smaller amount allocated according to the number of children of service families, and an allocation for each pupil who has been 'Looked After' (in care) for 6 months or more. In 2012, funding was extended to include pupils who have been eligible for free school meals within the past 6 years.

Please speak to the school office as soon as possible if you think that your child may be eligible for free school meals.

It is for schools to decide how the Pupil Premium is spent, as they are best placed to assess what additional provision should be made for the individual pupils. However, schools are accountable for how they have use this additional funding to support pupils from low-income families. From September 2012, schools have had to publish this information on the school website. Please see below for information regarding how the pupil premium was spent in the last financial year and the impact of this funding on pupils achievement at school. The Department of Education has created a document [Pupil Premium - what you need to know](#) which expands on the purpose of the pupil premium and the key facts.

At Blackboys Primary we have high aspirations for all our children and believe that no child should be left behind. We aim to develop a thirst for knowledge, a commitment to learning and to give every child in our school every chance in life.

We are a small rural school of 131 (September 2022) pupils and for the year 2021-22 approximately 10% of our pupils were in receipt of the Pupil Premium Grant. This is well below national average.

Although our pupil premium funding is not a major proportion of our budget, it is a significant amount of money and we are determined to ensure that it is used to its best effect. With this in mind we research the best ways to use this grant and have generally focused on interventions which have been shown to have particular impact e.g. work of the Sutton Trust.

Barriers to Learning

When making decisions about using the grant we look at common barriers to learning such as support at home, language and communication skills, social and emotional aspects of learning including confidence, attendance and punctuality issues. Complex family situations may sometimes prevent children from flourishing and can present as another significant barrier to learning. We work with families to make sure children get the support they need.

Our main objective in deciding how to use the Pupil Premium Grant is to ensure that the gap between groups of pupils is narrowed and we aim to ensure that targeted interventions help remove barriers to learning and progress.

Key Principles

Building belief and a “can do” attitude

- Staff believe that all children can succeed.
- We celebrate individual strengths and have high expectations for all children.
- The school community works hard to develop resilience and perseverance in all our children.

Data Analysis

- Children's progress is analysed termly. Plans and strategies are reviewed following that analysis to ensure the best possible outcomes for all children.
- We use current research (Sutton Trust Toolkit, Educational Endowment Fund) to support us in planning strategies that will be the most effective in improving outcomes.

Pupil Identification

- All staff are aware of PPG children and other vulnerable groups across the school.
- All Pupil Premium children benefit from the grant. The school responds flexibly to the needs of individual children.

Day to Day teaching

- All staff have high expectations.
- Staff follow a robust system of feedback and assessment.
- We aim to maximise teaching time by improving attendance and punctuality.
- We identify barriers to learning and provide early intervention.

How do we spend our Pupil Premium Grant?

- The school employs qualified and experienced teachers to teach children individually and in small groups, working on focused targets to boost attainment.
- Funding for emotional support and building confidence and self-esteem through counselling and play therapy.
- Funding for enrichment activities. E.g. after-school clubs, subsidised trips for individual children. Our school values life experiences and our staff and parents appreciate how much the children gain from extra-curricular activities.
- Additional individual or small group tuition programmes tailored individually for those children who need a boost to their learning, eg small group reading, writing or maths tuition.
- TA support for 1:1 work or small groups in maths and literacy.

Who is it spent on?

- Pupil Premium (PP) pupils who are under-achieving.
- PP and other vulnerable group pupils who are in danger of underachieving.
- PP and other vulnerable group pupils for whom low attendance is an issue.
- PP pupils who are achieving well and need to be extended and challenged.

Medium Term Analysis of Impact

- The impact of Pupil Premium provision is reviewed termly.
- Analysis of each child's progress and achievement is made termly using the school's tracking system and progress and provision mapping meetings which measure impact and outcomes with both teachers, Inclusion team and Senior Leadership Team member.

Our PPG Report and Strategy are updated regularly and reviewed annually. The next review will be in September 2023.
